

SAFT TRAINING & ACCREDITATION

"This is a unique opportunity for footwear technologists to demonstrate and develop their knowledge range." [Stuart Irons, Training]

Why use SATRA?

Unrivalled technical knowledge and expertise.

Benefit from the global presence, strength and authority of the SATRA brand.

Specific Benefits

- The SAFT (SATRA Accredited Footwear Technologist) award is an internationally recognised qualification, and is clear evidence that you are a footwear technologist with a proven range of knowledge.
- You will receive the most comprehensive and up-to-date information in five key areas of footwear manufacture.

Price per person (excluding VAT)

For 1 or 2 modules: GBP 850 per module
 For 3 modules: GBP 825 per module
 For 4 modules: GBP 800 per module
 For 5 modules: GBP 780 per module

Footwear production – critical aspects

Successful modern manufacturing processes rely on accurate practical information and the ability of staff to understand and apply such information.

In a global and competitive marketplace, knowledge and skills are increasingly important. SATRA has designed this training course for all technologists involved in any aspect of footwear production.

5 key areas

- Lasts & fitting
- Materials & constructions
- Laboratory testing procedures
- Product design, performance & risk assessment
- Quality assurance & supplier auditing

Each module is led by a SATRA specialist and covered in detail during two days intensive training including comprehensive documentation – the ten days can be held either at SATRA or, if numbers are sufficient, at your company.

Accreditation

Once the course is complete, SATRA will notify you of the next opportunity to take optional written examinations. You must obtain a pass in all five modules if you wish to receive a SAFT accreditation. You do not need to take all five examinations at one go, but you must obtain passes in all the papers within two years to obtain accreditation.
